CLIENT LIST

The fountainhead of quality in products is fed by a sustained corporate commitment to fulfilling customer demands. **Eewa Engineering Company Pvt. Ltd.** has grown from manufacturing Impulse Heat Sealing Machinery to being a major corporate player and market in the manufacture of multifaceted range of products in Sealing & Packaging Machineries.

Our Priority at Eewa:

Our first and foremost priority is the soundness of the product. We firmly believe that “The product offered must give the customer, not only what he expects, but true value, besides being an engineering marvel.” **Eewa's** enormous strength comes from a wonderful combination of its highly efficient and professional management and a dedicated workforce of qualified and experienced engineers and technicians and marketing personnel, which in turn, leads to world-class manufacturing, testing and R & D, besides meeting requirements of clients' specifications in India and world across. Each and every component of our products is manufactured under strict supervision of our highly qualified, technically trained and experienced engineers. Our products reflect **Eewa's** assurance of quality. State-of-the-art technology, latest machinery and continuous research and development are the key elements of our success.

Customer Care at Eewa:

We, at **Eewa**, give utmost attention and take care even of a small suggestion of the customer. At **Eewa**, we believe in optimization of productivity and proficiency, which leads to quality. We make value addition, by customizing product by engineering modifications, so the customers get what they want and what they pay for. We humbly acknowledge the trust reposed by our customers in not only our product, but also in our service and after sales support. We, with our sophisticated and fully computerized inventory system, are quite capable of swiftly dispatching our orders and provide instant updates of orders, billing, and inventory and provide information for any query.

DRIVE FORCE OF **EEWA** SINCE 1967
